Discover More about the 6V0-31.22 Certification

Are you interested in passing the VMware 6V0-31.22 exam? First discover, who benefits from the 6V0-31.22 certification. The 6V0-31.22 is suitable for a candidate if he wants to learn about Cloud Management and Automation. Passing the 6V0-31.22 exam earns you the VMware Aria Cost powered by CloudHealth Platform (Azure) Skills 2024 title.

While preparing for the 6V0-31.22 exam, many candidates struggle to get the necessary materials. But do not worry; your struggling days are over. The 6V0-31.22 PDF contains some of the most valuable preparation tips and the details and instant access to useful 6V0-31.22 study materials **just at one click**.

VMware 6V0-31.22 CloudHealth Platform Administrator Certification Details:

Exam Name	VMware Aria Cost powered by CloudHealth Platform Administrator - Associate (AWS)
Exam Code	6V0-31.22
Exam Price	$250 USD
Duration	90 minutes
Number of Questions	50
Passing Score	300 / 500
Recommended Training / Books	**Intro to the CloudHealth Platform training (Must be logged into the platform and into CloudHealth Academy for link to work)**
Schedule Exam	**PEARSON VUE**
Sample Questions	**VMware 6V0-31.22 Sample Questions**
Recommended Practice	**VMware Aria Cost powered by CloudHealth Platform (Azure) Skills 2024 Practice Test**

6V0-31.22 Syllabus:

Section	Objectives	Weight
Administration	- Create and manage FlexOrgs including Role Documents, User Groups, and Organizational Units. - Gather data and billing information (e.g., enable integrations, enable SSO, configure accounts and/or Service Principal and Enterprise Agreement) including Reservations. - Determine the difference in configuration for Standalone, Consolidated, and Linked accounts and their account statuses. - Configure and manage 3rd party integrations (e.g., New Relic, Datadog, Chef). - Configure container clusters in the VMware Aria Cost platform and set up/modify container reports. - Understand the types of APIs available and what they are used for.	**20%**
Reports and Dashboards	- Differentiate between the available reports and dashboards (e.g., InterActive Reports, FlexReports), manage reports and budgets (e.g., filter, customize, categorize, save, subscribe/unsubscribe, pin/unpin, download), change the dashboard/change the default dashboard. - Find and analyze information about cost, usage, performance, and security of your infrastructure. - Determine data sources and ranges in reports. - Describe the concepts of Cost Reallocation and Custom Line Items.	**20%**
Perspectives Management	- Build and manage Perspectives including selecting an asset type, choosing a discovery method, merging/cleaning groups, creating Static vs. Dynamic groups, and reducing Assets Not Allocated.	**20%**
Optimization	- Determine appropriate sizing, while ensuring necessary performance.	**20%**

Section	Objectives	Weight
	- Analyze use of Reservations and Savings Plans and identify savings opportunities. - Create an RI quote or determine Savings Plan purchasing options. - Optimize non-compute services (e.g., EBS Volumes/Disks, untagged SQL services, disassociated elastic IPs, etc.). - Identify security risks.	
Governance and Automation	- Automations (e.g., enable automations, create an action flow). - Create policies that meet various business scenarios. This includes those that trigger alerts and those that have authorization/ approvers to perform actions. - Exclude resources from policy actions. - Identify missing tags and determine a tagging strategy for your business.	**20%**

Broaden Your Knowledge with VMware 6V0-31.22 Sample Questions:

Question: 1

In the context of creating Static versus Dynamic groups in CloudHealth, which statements accurately describe these group types?

(Choose Two)

   a) Static groups require manual updates to reflect changes in assets
   b) Dynamic groups automatically update based on predefined rules
   c) Static groups are better suited for fluctuating asset types
   d) Dynamic groups are manually curated to ensure data accuracy

Answer: a, b

Question: 2

How can an administrator reduce costs associated with disassociated elastic IPs in AWS?

- a) Releasing unused IPs
- b) Assigning all IPs to a single server
- c) Increasing the number of available IPs
- d) Encrypting IP address allocations

Answer: a

Question: 3

An effective perspective for managing departmental budgets should include which of the following criteria?

- a) Department identifier
- b) Instance type
- c) Hourly usage data
- d) Geographic location of data centers

Answer: a

Question: 4

What is a primary benefit of converting on-demand instances to Savings Plans?

- a) Extended contract terms with AWS
- b) Immediate reduction in operational overhead
- c) Enhancement in network performance
- d) Increased flexibility in instance types

Answer: d

Question: 5

Which scenario best utilizes the concept of Cost Reallocation within a cloud management platform?

(Choose Two)

- a) Distributing shared service costs across consuming departments
- b) Allocating discounts received on one account to multiple linked accounts
- c) Billing back network traffic costs to individual users
- d) Reassigning cost centers during corporate restructuring

Answer: a, b

Question: 6

What is a key indicator of account status that differs between Linked and Standalone accounts in the CloudHealth platform?

a) The level of data encryption used
b) The visibility of shared resources
c) The integration with third-party services
d) The method of user authentication

Answer: b

Question: 7

Which factors should be considered when determining the most beneficial AWS Savings Plan?

(Choose Two)

a) The commitment term
b) The types of instances used
c) The color scheme of the dashboard
d) The volume of data processed

Answer: a, b

Question: 8

What strategy is effective in reducing the number of 'Assets Not Allocated' in a Perspective?

a) Increasing the frequency of manual audits
b) Implementing stricter access controls
c) Enhancing the tagging completeness and accuracy
d) Reducing the number of asset types used

Answer: c

Question: 9

When creating a quote for Reserved Instances (RI), what information is crucial to optimize savings?

a) The duration of the reservation
b) The credit score of the company
c) The geographic location of the user
d) The color preference for the AWS Management Console

Answer: a

Question: 10

For achieving optimal resource utilization, which metric should be primarily monitored?

a) Security threat alerts
b) Data ingress and egress volumes
c) Number of active users
d) CPU utilization thresholds

Answer: d

Avail the Study Guide to Pass VMware 6V0-31.22 CloudHealth Platform Administrator Exam:

- Find out about the 6V0-31.22 syllabus topics. Visiting the official site offers an idea about the exam structure and other important study resources. Going through the syllabus topics help to plan the exam in an organized manner.

- Once you are done exploring the **6V0-31.22 syllabus**, it is time to plan for studying and covering the syllabus topics from the core. Chalk out the best plan for yourself to cover each part of the syllabus in a hassle-free manner.

- A study schedule helps you to stay calm throughout your exam preparation. It should contain your materials and thoughts like study hours, number of topics for daily studying mentioned on it. The best bet to clear the exam is to follow your schedule rigorously.

- The candidate should not miss out on the scope to learn from the 6V0-31.22 training. Joining the VMware provided training for 6V0-31.22 exam helps a candidate to strengthen his practical knowledge base from the certification.

- Learning about the probable questions and gaining knowledge regarding the exam structure helps a lot. Go through the **6V0-31.22 sample questions** and boost your knowledge

- Make yourself a pro through online practicing the syllabus topics. 6V0-31.22 practice tests would guide you on your strengths and weaknesses regarding the syllabus topics. Through rigorous practicing, you can improve the weaker sections too. Learn well about time management during exam and become confident gradually with practice tests.

Career Benefits:

- Passing the 6V0-31.22 exam, helps a candidate to prosper highly in his career. Having the certification on the resume adds to the candidate's benefit and helps to get the best opportunities.

Here Is the Trusted Practice Test for the 6V0-31.22 Certification

VMExam.Com is here with all the necessary details regarding the 6V0-31.22 exam. We provide authentic practice tests for the 6V0-31.22 exam. What do you gain from these practice tests? You get to experience the real exam-like questions made by industry experts and get a scope to improve your performance in the actual exam. Rely on VMExam.Com for rigorous, unlimited two-month attempts on the **6V0-31.22 practice tests**, and gradually build your confidence. Rigorous practice made many aspirants successful and made their journey easy towards grabbing the VMware Aria Cost powered by CloudHealth Platform (Azure) Skills 2024.
