Discover More about the 5V0-32.21 Certification

Are you interested in passing the VMware 5V0-32.21 exam? First discover, who benefits from the 5V0-32.21 certification. The 5V0-32.21 is suitable for a candidate if he wants to learn about Data Center Virtualization. Passing the 5V0-32.21 exam earns you the VMware Certified Specialist - Cloud Provider 2024 [v2] title.

While preparing for the 5V0-32.21 exam, many candidates struggle to get the necessary materials. But do not worry; your struggling days are over. The 5V0-32.21 PDF contains some of the most valuable preparation tips and the details and instant access to useful 5V0-32.21 study materials **just at one click**.

VMware 5V0-32.21 Cloud Provider Specialist Certification Details:

Exam Name	VMware Cloud Provider Specialist
Exam Code	5V0-32.21
Exam Price	$250 USD
Duration	110 minutes
Number of Questions	53
Passing Score	300 / 500
Recommended Training / Books	VMware Cloud Director: Install, Configure, Manage [V10.3] VMware Cloud Director: Install, Configure, Manage [V10.3] – On Demand
Schedule Exam	**PEARSON VUE**
Sample Questions	**VMware 5V0-32.21 Sample Questions**
Recommended Practice	**VMware Certified Specialist - Cloud Provider 2024 [v2] Practice Test**

5V0-32.21 Syllabus:

Section	Objectives
VMware vCloud Director Architecture	- Identify the function of VMware Cloud Director cell architecture and services. - Identify the function of VMware Cloud Director resource abstractions. - Identify the function of VMware Cloud Director networking concepts. - Identify the function of VMware Cloud Director storage concepts.
VMware Products and Solutions	- Identify the components of the Cloud Provider Platform. - Identify the functionality of VMware vCloud Usage Meter. - Identify the functionality of VMware vCloud Usage Insight and VMware Commerce Portal. - Identify use cases of Cloud Foundation. - Identify use cases of Container Service Extension. - Identify use cases of App Launch Pad. - Identify use cases of Object Storage Service. - Identify use cases of vRealize Orchestrator. - Identify components of Cloud Director Availability. - Identify use cases of Cloud Director Availability. - Identify components of vRealize Operations Tenant App for Cloud Director. - Identify use cases for vRealize Operations Tenant App for Cloud Director.
Planning and Designing	
Configure and install VMware vCloud Director	- Given an installation scenario, identify hardware and software requirements. - Identify the steps to install and configure VMware Cloud Director. - Given a scenario, identify the appropriate configuration of VMware Cloud Director networking - Given a scenario, Identify the appropriate configuration of

Section	Objectives
	VMware vSphere resources
	- Given a scenario, identify the appropriate configuration of VMware Storage.
	- Given a scenario, identify the appropriate configuration of VMware Cloud Director resource abstractions.
	- Identify the steps to configure and enable identity provider functionality.
	- Create and manage SSL certificates
	- Identify the load balancing requirements fort VMware Cloud Director.
	- Identify the steps to configure Central Point of Management (CPoM)
	- Identify the requirements to configure VMware vCloud Usage Meter.
Performance-tuning, Optimization, and Upgrades	- Given an installation scenario, identify hardware and software requirements.
Troubleshooting and Repairing	- Identify locations to VMware Cloud Director logs.
Administration and Operations of VMware vCloud Director	- Identify the steps to add resources to VMware Cloud Director.
	- Identify how to manage cloud resources using VMware Cloud Director.
	- Identify how to manage organizations in VMware Cloud Director.
	- Identify the Orgarization Virtual Data Center (oVDC) allocation models in VMware Cloud Director.
	- Identify how to manage catalogs using VMware Cloud Director user Interface.
	- Identify default and custom VMware Cloud Director user roles and groups
	- Identify the steps to configure and manage vApps
	- Identify the steps to configure and manage Virtual Machines (VMs).

Section	Objectives
	- Identify how to configure and apply VMware Cloud Director Availabelty Policies and SLA Profiles. - Identify the available tenant networking objects in VMware Cloud Director - Identify the functionality of Data Center Groups - Identify how to configure VMware Cloud Director for multi-site management.

Broaden Your Knowledge with VMware 5V0-32.21 Sample Questions:

Question: 1

Which two steps are mandatory before upgrading VMware Cloud Director appliances from 10.1 to 10.2? (Choose two.)

a) Take a snapshot of the entire VCD appliances cluster.
b) Take a snapshot of the primary VCD appliance.
c) Take a snapshot of the standby VCD appliance.
d) Change the database failover from Manual to Automatic.
e) Change the database failover from Automatic to Manual.

Answer: a, d

Question: 2

Having just deployed VMware Cloud Director, a service provider needs to create Provider Virtual Data Centers so their tenants can consume cloud resources through their Organization Virtual Data Centers. Which two options can be used to create Provider VDCs?

(Choose two.)

a) Service Provider Admin Portal
b) vSphere Client
c) Tenant Admin Portal
d) Operations Manager Portal
e) vCloud API

Answer: a, b

Question: 3

Which VMware Cloud Director constructs are available in an Organization?

a) Datastores, Storage Policy, Resource Pools, VM Placement Policy
b) Extensibility, Licensing, Public Addresses, vSphere Services
c) Leases, Policies, Quotas, Catalogs
d) Network Pools, External Networks, Cloud Director Cell

Answer: a

Question: 4

An administrator is trying to add a new Provider VDC and wants to consume the vSphere storage policy immediately. Which action should the System Administrator take next?

a) Under Resources -> Disable, and then Enable the vCenter Server instance.
b) Under Resources -> Infrastructure Resources, click "Update" for the vCenter Server instance.
c) Under Resources -> Infrastructure Resources, click "Refresh Policies" for the vCenter Server instance.
d) Under Resources -> Infrastructure Resources, click "Reconnect" for the vCenter Server instance.

Answer: d

Question: 5

An administrator is planning a new VMware Cloud Director deployment and is concerned about secure communications between the clients and servers. Which two recommended steps would ensure secure communications between the clients and servers?

(Choose two.)

a) VMware Cloud Director automatically creates self-signed certificates.
b) Create a single certificate for each member of the server group, and import the certificates into the host keystores.
c) Create two certificates for the server group, and import the certificates into each cell's keystore.
d) Create a single certificate and upload it through the Service Provider Portal to all members of the server group.
e) Create or use an existing wildcard certificate, and import it into each cell's keystore.

Answer: c, e

uestion: 6

In which two ways can a vApp be built using the VMware Cloud Director tenant portal?

(Choose two.)

a) By importing a vApp using a VMDK
b) By creating a vApp from a vApp template
c) By creating a vApp from an ISO image
d) By creating a vApp from catalog
e) By importing a vApp from vCenter Server as a vApp

Answer: b, d

Question: 7

A cloud provider wants to adopt VMware Cloud Foundation for management and resource clusters and is planning on having separate management and user workload domains. Which architecture achieves this goal?

a) Multi-instance Management
b) Standard
c) Stretched
d) Consolidated

Answer: b

Question: 8

On which type of network in VMware Cloud Director can fence mode be enabled?

a) Isolated vApp Network
b) Direct vApp Network
c) External Network
d) Routed vApp Network

Answer: b

Question: 9

What is the function of vCloud Usage Meter Billing Categories?

a) To indicate which licensing belongs to individual tenants
b) To indicate which VCPP bundle has been detected
c) To indicate which license keys are billable
d) To indicate if consumption is based on vRAM or per OSI/VM

Answer: c

Question: 10

The runtime lease of a virtual machine is about to expire. The administrator would like to extend the lease time. Which action should be taken to complete this task?

a) Renew the lease from the vApp action menu.
b) Extend the storage lease, and runtime will automatically be extended.
c) Use the /api/renewlease endpoint to define a new lease time.
d) Renew the VM lease only after renewing the vApp lease.

Answer: a

Avail the Study Guide to Pass VMware 5V0-32.21 Cloud Provider Specialist Exam:

- Find out about the 5V0-32.21 syllabus topics. Visiting the official site offers an idea about the exam structure and other important study resources. Going through the syllabus topics help to plan the exam in an organized manner.
- Once you are done exploring the **5V0-32.21 syllabus**, it is time to plan for studying and covering the syllabus topics from the core. Chalk out the best plan for yourself to cover each part of the syllabus in a hassle-free manner.
- A study schedule helps you to stay calm throughout your exam preparation. It should contain your materials and thoughts like study hours, number of topics for daily studying mentioned on it. The best bet to clear the exam is to follow your schedule rigorously.
- The candidate should not miss out on the scope to learn from the 5V0-32.21 training. Joining the VMware provided training for 5V0-32.21 exam helps a candidate to strengthen his practical knowledge base from the certification.
- Learning about the probable questions and gaining knowledge regarding the exam structure helps a lot. Go through the **5V0-32.21 sample questions** and boost your knowledge
- Make yourself a pro through online practicing the syllabus topics. 5V0-32.21 practice tests would guide you on your strengths and weaknesses regarding the syllabus topics. Through rigorous practicing, you can improve the weaker sections too. Learn well about time management during exam and become confident gradually with practice tests.

Career Benefits:

- Passing the 5V0-32.21 exam, helps a candidate to prosper highly in his career. Having the certification on the resume adds to the candidate's benefit and helps to get the best opportunities.

Here Is the Trusted Practice Test for the 5V0-32.21 Certification

VMExam.Com is here with all the necessary details regarding the 5V0-32.21 exam. We provide authentic practice tests for the 5V0-32.21 exam. What do you gain from these practice tests? You get to experience the real exam-like questions made by industry experts and get a scope to improve your performance in the actual exam. Rely on VMExam.Com for rigorous, unlimited two-month attempts on the **5V0-32.21 practice tests**, and gradually build your confidence. Rigorous practice made many aspirants successful and made their journey easy towards grabbing the VMware Certified Specialist - Cloud Provider 2024 [v2].
